LapLock™ PSU (HT) is a high temp. self adhered roofing underlayment for steep roof applications. LapLock™ provides unmatched protection from storms, hail, ice dams, wind-driven rain, snow and water. LapLock™ PSU (HT) has a mechanical slip resistant walking surface which provides superior steep slope walkability for roofers. In addition, LapLock’s dual-locking lap technology creates an outstanding water-tight seal that keeps your roof dry in the rare event of Mother Nature's wrath.

LapLock™ PSU (HT) is designed for use under asphalt shingles, concrete tiles, all metal panels, shakes, synthetic shingles and primed cedar shakes. LapLock™ PSU (HT) meets all building code requirements including ASTM D226, ASTM D4869 and AC 48.

LapLock™ PSU (HT) not only protects roof decks, it protects Roofers as well. Ask for it at your nearest roofing distributor today.

FEATURES & BENEFITS
- Mechanical slip resistant walking surface which provides superior steep slope walkability for roofers
- High temp. self adhered with a split release liner
- LapLock™ dual-locking lap seal technology for water tight seals on laps
- Meets and exceeds ASTM D1970
- 180 days UV exposure
- Limited Lifetime Warranty
- Polyfoam/ICP adhesive approved
- ICC-ES ESR-4054  |  FBC approved – FL22638
- Texas Department of Insurance approved
- Low temperature flexibility – AC 48 PASS
- Thermal stability – 240° F
- Temperature range – 40° F to 240° F

TECHNICAL DATA

UV: When you install with LapLock™ PSU (HT), Mother Nature doesn't stand a chance!

ICE DAMS: The effects of not protecting your roof deck from Ice Dams can be devastating and costly. Safeguard your investment with Roofnado LapLock PSU (HT) and rest assured that your roof will remain dry during the worst that Mother Nature can throw at it.
